Self Definition

I consider myself an optimistic person with lots of patience, I am usually calm even when i am under pressure. I am motivated and enthusiastic by new challenges. I can work alone although I like to help others and work in teams.

Mentor Opinion

Constantly learning, Milán takes online courses frequently to stay up-to-date on the latest techniques in software development. He is able to thoroughly focus on every project and is not easily distracted. He comprehends instructions quickly and is flexible when changes have to be made in the original plan. He is a skillful communicator both written and verbal and works extremely well with our others.

Peer Recommendations

”

Milan is a great developer, high-potential student with a solid background and well developed English skills. He learns very quickly, has good communication skills, works really well in a team although he has the skill to work alone and educate himself. The hard-working attitude from Milan motivates us all.
